

Carol SingletonSlade

Energy Practice Lead, Egon Zehnder

Carol SingletonSlade, based in Houston, leads the Global Energy Practice, working across the whole energy value chain with a focus on upstream operators and services. Carol is a trusted advisor to global energy organizations at the board and C-level, providing counsel in CEO succession and board effectiveness and working as a strategic partner to fill critical technical and operational leadership roles. Carol leads Egon Zehnder's US Board Practice and is also active in Egon Zehnder's CEO and Industrial Practices.

Prior to joining Egon Zehnder, Carol started her career in technical exploration as a geophysicist working with BP, Hess and BG moving into broader regional exploration leadership roles. She then was the commercial lead for exploration in Alaska with Arco before moving into corporate strategy and financial advisory.

Carol earned a BS in Physics from Imperial College of Science and Technology in London, an MS in Geophysics from Durham University, and an MBA from Southern Methodist University. Carol is also a member of the Society of Petroleum Engineers.
