

## **Allen Gelwick**

Executive Vice President, Partner of Texas Lockton Companies, L.L.C.  
Director, Houston Symphony Board of Trustees, Society for Values and Higher Education, Material Intellect

---

Allen Gelwick has over 30 years of insurance industry related experience. During this time, he has serviced a wide range of insurance risks with a focus on designing risk-financing solutions.

He started his career in underwriting at Chubb, working in various capacities in both the field and at home office levels. He has continued a senior executive of several public insurance brokerage firms until March of 2001 when he co-founded the Houston office of Lockton Companies, now operating as the Texas Series of Lockton with over 600 associates. Lockton is the largest privately held insurance brokerage firm in the world servicing client needs in over 100 countries. The Texas Series has dedicated practices in aviation, cyber, energy, marine, M&A Due Diligence, power, environmental, directors and officers coverage's, healthcare, surety, along with the full complement of employee benefits, consulting and brokerage services.

During his career he has serviced broad spectrum of industries including: aviation, automotive, construction, education, energy, environmental, manufacturing, real estate, retail, transportation, technology and healthcare. He has also worked extensively with financial institutions, M&A customers and high growth companies.

In addition, Mr. Gelwick is actively involved in the design and development of alternative insurance bespoke products including products that represent the convergence of capital markets and insurance capital markets. In 2001 led the establishment of Lockton's Houston based Environmental practice and in 2004 he helped to establish Lockton's Advanced & Renewable Energy Services (ARES) practice. In the capacity of an Organizer and Director he personally participated in successfully creating a publicly traded company in the health services industry.

Allen earned his Bachelor of Arts degree in History from Earlham College, Richmond, Indiana. Mr. Gelwick has presented at various conferences over the years including: National RIMS Conference, Chaired the ASME International Petroleum Division's Business Risk Management Symposium, Strategic Institute Seminars, Texas General Counsel Forum, National Ethics Conference, the Petroleum Industry Risk and Insurance Conference, EPNanonet and SolarPraxis 4<sup>th</sup> Annual PV Power Plants conference.

Mr. Gelwick is a past Chairman of the Foundation for Arts and Cultural Enrichment, as well as former member of the Houston Symphony Executive Board. He was the first VP of Pops for the Houston Symphony and continues as the Board of Trustee for the 2016/2017 season. Mr. Gelwick is a Board Membership Committee Chairman of the Texas TriCities NACD chapter; the largest NACD chapter in the country. In addition to various local charity involvements, Allen is a national associate member of RIMS and Director of Material Intellect, a material science informatics company. He is a lifetime member of the Society for Values in Higher Education.
